

Did you know you can recycle ALL BRANDS of contact lenses and their packaging for FREE via TerraCycle and your local participating ophthalmologist? This includes lenses and *opened* blister packs. Simply drop off at the eyecare office of *Kevin Cox, MD*. This program is sponsored by Bausch & Lomb.

Kevin Cox MD

635 Robert E Lee Ave Elkins WV, USA, 26241
(304) 636-4021

After collection by TerraCycle, contact lenses and blister packs are separated by composition and cleaned. The metal layers of the blister packs are recycled separately, while the contact lenses and plastic blister pack components are melted into plastic that can be remolded to make recycled products. For every qualifying shipment, a donation is made to Optometry Giving Sight, the only global fundraising initiative that specifically targets the prevention of blindness and impaired vision due to uncorrected refractive error - simply the need for an eye exam and a pair of glasses.
